Springfield, OR 97477

Breast & MRI Center
3355 RiverBend Dr. #100
Springfield, OR 97477

MRI (Magnetic Resonance Imaging) utilizes radio frequencies and magnetic fields to produce images of the body that are in thin slices. These slices provide high resolution images of both bone and soft tissues. Depending on the type of scan your physician has requested, you may be given an injection of IV contrast (dye) as part of your exam.

If you have any questions regarding your exam, please feel free to call us:
