

INFANT HIP ULTRASOUND

Exam Code: USHIPWMAN

Exam Description: This is a study of the structures of the infant hip up to one year of age.

Information Needed:

- What is the clinical indication for exam?

Scheduling Times:

- Any time Radiologist is available.

Patient Preparation:

- No Prep

Patient Requirements:

- None

Special Notes:

- An MSK radiologist needs to be available for exam. If the patient is in a harness, we need to know if the patient is to be scanned in and out of the harness or only while in the harness. If this is a screening exam due to a breach delivery our radiologists recommend is to do the exam after 6 weeks of age.
